HEMANT KAKDE

Power BI Developer

hkakde1998@gmail.com | linkedin.com/in/hemant-kakde-81583a1b4 | 9527044520

Profile Summary

Detail-oriented and analytical Data Analyst with hands-on experience in data analysis, data visualization, reporting, and statistical modeling. Proficient in SQL, Python, Excel, Power BI, and ETL processes to extract, clean, and transform data into actionable insights. Strong foundation in data wrangling, KPI tracking, and dashboard development to support data-driven decision-making.

Skilled at using DAX and advanced Power BI features to create dynamic, user-friendly dashboards for business stakeholders. Capable of performing statistical analysis and building predictive insights through Python libraries like Pandas, NumPy, Matplotlib, and Seaborn. Experienced in working with large datasets, optimizing data pipelines, and collaborating with cross-functional teams to deliver customized reporting solutions.

Technical Skills

- **Data Analysis:** SQL, Python

- **Data Cleaning:** NumPy, Pandas, ETL processes

- **Visualization:** Power BI, Seaborn, Excel, DAX, Matplotlib, Looker Studio

- **Statistical Analysis:** Hypothesis testing, Measures of Central Tendency, Dispersion

- **Database Management:** SQL Server, SQL Management Studio

- **Data Modeling:** DAX

Experience

Capgemini Engineering India, Pune, Maharashtra   **Aug 2021 – Oct 2023**

- Transformed complex datasets into strategic insights using SQL, Python, Excel, and Power BI.

- Built and automated interactive Power BI dashboards for key business metrics.

- Delivered clear, actionable reports to senior stakeholders.

- Streamlined data workflows using SQL and Python.

- Designed scalable data models and implemented advanced DAX.

- Presented insights to clients, enhancing decision-making.

- Enabled real-time monitoring of KPIs for better performance tracking.

- Collaborated cross-functionally to deliver data solutions.

- Generated executive-ready reports in Excel and Power BI.

Red Switch Technology, Kolkata   **May 2025 – Present**

- Delivered Power BI dashboards across pharma, real estate, sustainability, retail, and sales domains.

- Built optimized data models and DAX measures.

- Translated raw data into actionable insights for strategy teams.

Klothewala (Consultant – Remote)   **May 2025 – Present**

- Provided data analytics consultation to optimize retail operations and reporting efficiency.

- Designed and implemented three Looker Studio dashboards for Operations, Orders, Finance, and Production.

- Automated reporting workflows and centralized data from Excel and Google Sheets to improve accuracy and speed.
- Delivered actionable insights that improved cross-department visibility and decision-making.
- Advised stakeholders on key performance indicators (KPIs) and recommended data-driven strategies.

Projects

Markforged Sales & Operations Dashboard

- Built interactive Power BI dashboard to track revenue, product trends, and YoY growth across GCC.
- Enabled filtering by industry and region for targeted business insights.
- Improved visibility into top products, demand, and regional performance.
- Delivered a real-time analytics tool to support strategic planning.

DTCO RFM Customer Segmentation Dashboard

- Developed Power BI dashboard for 21K+ customers and $36M in sales.
- Implemented RFM segmentation with drill-down by region and city.
- Provided insights into customer value and delivery performance.

Education

B.E., Bharati Vidyapeeth's College of Engineering, Pune   2020
CGPA: 7.8 / 10.0
